

Aviatrix Gateway Latencies

Source Gateway	Destination Gateway	Latency
spoke-india-server	avx-central-india-transit	1.08ms
spoke-india-vm	avx-central-india-transit	1.02ms

## Aviatrix Gateway Performance Monitoring Data

FlowIQ Data for vm-india:rg-av-spoke-india-vm-164097 and server-india:rg-av-spoke-india-server-894851

No FlowIQ records in the last hour for destination instance.

No FlowIQ records in the last hour for source instance.

No FlowIQ records in the last hour for source instance to destination instance.

**Aviatrix Flightpath Result:** Source spoke gateway spoke-india-vm in VPC spoke-india-vm:rg-av-spoke-india-vm-164097:15dad0e6-b9bc-4e83-8db9-bc8933e9505d and destination spoke gateway spoke-india-server in VPC spoke-india-server:rg-av-spoke-india-server-894851:f7c1801e-2759-4760-b68d-456844401739 is connected to the same transit gateway avx-central-india-transit in VPC avx-central-india-transit:rg-av-avx-central-india-transit-092440:b2e2f7cd-dfae-4990-9386-062d45e806fe. The associated transit gateway has Connected Transit enabled.
